- Attendance formula: part-time
- Duration: 12 months
- Tuition fee: € 4,500
- Language: English
- On campus or online
- International classes
- Scholarships: up to 30% of the tuition fee

OVERVIEW

eHealth is the combined use of information technology and electronic communication, especially the internet, in the health sector, for clinical, educational and administrative purposes; both on-site and at distance (in which case it is called Telemedicine).

E-Health is not only a technical development, but also represents a way of thinking, a commitment, an organizational approach to improve health care locally or regionally by using the new opportunities presented by Information and Communication Technology. By means of e-Health and Telemedicine, a Healthcare Institution or Ministry can achieve:

- more efficiency in health care: reducing costs by networking data and knowledge, avoiding duplication in diagnostic or therapeutic interventions, treating patients directly at home
- a higher quality of care: by networking the Health professionals’ knowledge, enabling comparisons, and involving the patients and caregivers
- the empowerment of patients
- the education of both physicians and patients about the management of pathologies
- more equity, for example by networking smaller hospitals with larger institutions and making virtual visits to remote areas

In this scenario, it is crucial for a Manager to understand the potentiality, seize the opportunities, push and, above all, lead the e-Health and Telemedicine revolution in health care. The Rome Business School’s Master in eHealth and Telemedicine Management has been designed to supply training on organizational processes and technologies aimed at the proper introduction and management of ICT solutions and Telemedicine in Health Systems. The Master is designed for Directors and Managers of Healthcare Institutions, Directors and Managers of Social and Healthcare Ministries, healthcare Decision-Makers, Clinicians, Clinical Engineers.
COURSE CONTENTS

- Introduction, Terms and General Concepts

When you look into it, the course is absolutely tailor made throughout and provides both practical and theoretical knowledge, as well as the latest trends in the industry’s know-how. The school really produces better managers for a better future.

Bobby Jacobs - India

“The programme was what I really needed in today’s market, in which we have to go abroad in terms of our socio-economic development. I got what I wanted; all I have to do now is to put it into practice and make sure that my dreams become a reality.”

Jean Chrysostome - Rwanda
BENEFITS

Career services
- Free CV Review and its inclusion in the Rome Business School’s database
- Support in the management of job interviews
- Networking meetings and a personalised search and flagging service for the best job opportunities

Tutoring
In both the on-campus and the distance-learning formulas, attendees can always count on the assistance of a tutor.

Learning materials
Slides, text books, case studies, articles, videos, and useful internet links.

The Rome Business School's Alumni Association
Attendance of the Master Programme entitles students to become part of the Rome Business School's Alumni Association, the international network through which students of the Rome Business School can share ideas, experiences, and projects. Many facilitations are also available for attending further training courses.

Company visits
Students will have the chance to learn more about international companies and their organizational models and working environments. Through these activities, our students have the opportunity to widen their horizons and build international networks.

Studying in Rome
Rome is the cradle of a millennial civilization that has always inspired and amazed the world. It provides a unique cultural setting in which students can enjoy a culturally rich experience while participating in courses which offer world-class teaching and a global experience.

Studying online
For this option, the Rome Business School employs a cutting-edge online platform, through which you will be able to:
- Follow lectures with full video and audio
- Interact in real time in audio and video with the teachers and the other attendees
- Collaborate and share documentation
- Watch the recording of the lectures whenever you want

“...I had an amazing experience with the Rome Business School. The small class size enabled the students to have a one on one relationship with the lecturers.”

Gulnaz Sharipova  - Russia
